To Whom It May Concern:

I had the pleasure of working alongside Kathleen Hamilton for nearly 9 years at All About Staffing / Parallon Workforce Solutions, and witnessed her professional work ethics and skills. She understands complex technologies and is able to creatively present them in a simple, engaging manner. She is a collaborative team player, and can always be relied upon.

As a senior developer and project manager, I relied heavily on Kathleen's Technical Writing skills for all levels and functions of the business. Her deliverables consistently exceeded expectations, even when juggling multiple projects with tight deadlines; often staying late and working overtime to complete them. I admired and appreciated her attention to detail as well as her passionate drive to stay current on the related technologies in her field. She would often ask me if I'd heard of something months before it became the latest tool or trend in the industry.

She is a woman of character—a high level of integrity, honest to a fault, and one who perseveres no matter what the price, in terms of effort and time spent. She is intelligent and articulate, and blends a high work ethic with a good sense of humor. She is outgoing, gregarious, and engaging. She understands the dynamic of "servant leadership," and she excels whether she is leading or following. With her unique compilation of skills and personality, I believe that she would be a valuable asset with any company.

Please feel free to reach me at 954-270-0784 for any additional information I may provide on her behalf.

Kathleen earns my highest recommendation.

Regards,

Doug Humbert, PMP  
Project Manager / Senior Developer
